Can I use one document for both identity and address proof?

Dan Rikkou - 2026-02-26 - [Comments \(0\)](#) - [Onboarding](#)

Yes. You may use **one document** for both identity and address verification if your ID clearly shows your **residential address** (for example, a driver's license). However, in some cases, **separate documents may still be requested**.

You can check the list of **accepted documents** in our verification requirements below link:
