## Why Is My Withdrawal Not Reflecting?

Dan Rikkou - 2026-02-26 - [Comments \(0\)](#) - [Withdrawal](#)

Withdrawal processing times depend on the payment method used:

- **Cryptocurrency:** T + 1 working day
- **Local bank transfers:** 1-3 working days
- **Wire transfers:** 5-7 working days
- **Credit/Debit cards:** 2-10 working days

Please note that **withdrawals are processed on business days only (Monday to Friday)**. If you submit a withdrawal request on **Friday**, processing will begin on the **next business day (Monday)**.

If your withdrawal status shows “**Successful**”, this means your request has been approved and processed on our side. The transaction is now being handled by the **payment gateway**, and the funds will be credited according to the timeframe of your chosen payment method.

*If your withdrawal has not been received after the stated timeframe, please contact our Support Team via Live Chat or email at [support@infinox.com](mailto:support@infinox.com) for further assistance.*
