Can I Cancel My Withdrawal?

Dan Rikkou - 2026-02-26 - [Comentarios \(0\)](#) - [Withdrawal](#)

Yes, a withdrawal can be cancelled **only while its status is "Pending."**

To cancel a pending withdrawal:

1. Log in to your **Client Area**.
2. Go to **Funds > Transaction History**.
3. Locate the **Pending** transaction and click **Cancel Withdrawal**.

Please note that once the withdrawal status changes from Pending, it can no longer be cancelled.
