Yes. You can transfer funds between your trading accounts directly in the **Client Area**.

To make an internal transfer:

1. Go to **Funds > Transfer Funds**
2. Select the account you would like to transfer funds **from**
3. Select the account you would like to transfer funds **to**
4. Click **Continue** to complete the transfer

Internal transfers are usually processed **immediately**.

If your transfer remains in Pending status for more than 10 minutes.
