Most deposit methods are **instant** or processed within a short time. Processing times may vary depending on the payment method used:

- **Local bank transfer:** Typically processed within **5-30 minutes**
- **Crypto transfer:** Usually processed within **20 minutes**
- **Debit / Credit Card or Apple Pay:** Processed within **a few minutes**
- **International bank wire transfer:** Typically takes **5-7 business days**, depending on the bank's processing time
