What is the amount received by managers and investors at the conclusion of each trading interval before compensation is granted?

Dan Rikkou - 2026-06-17 - [Comentários \(0\) - PAMM](#)

If the PAMM account achieved a 200% return:

- Manager earns 200% of their initial deposit ($300 \text{ USD} \times 200\% = 600 \text{ USD}$).
- Investor earns 200% of their investment ($200 \text{ USD} \times 200\% = 400 \text{ USD}$).
