## How are profits and losses allocated in PAMM accounts?

Dan Rikkou - 2026-06-15 - [Comments \(0\)](#) - [PAMM](#)

Profits and losses are distributed proportionally based on funds invested:

- Manager's portion: 60% (300 USD).
- Investor's portion: 40% (200 USD).
- Combined account balance: 500 USD.
