My Bank Transfer Withdrawal Was Approved But I Haven't Received Funds Yet?

Dan Rikkou - 2026-02-10 - [Comments \(0\)](#) - [Withdrawal](#)

If your bank transfer withdrawal shows a **"Successful"** status, it means your request has been approved and processed on our side and is now being handled by the **payment gateway**.

Bank transfers typically take **3-5 working days** after approval to be credited to your bank account. In some cases, funds may be received sooner.

Please also check your email, as additional information may be required by the payment provider to complete the transfer.

If you do not receive your funds after this timeframe, please contact our Support Team via Live Chat or email at support@infinox.com
