INFINOX supports MT4, MT5, WebTrader, and mobile apps.

How to Download and Install MetaTrader 4 & 5 (Windows)

Please be informed that **MetaTrader 4 (MT4)** and **MetaTrader 5 (MT5)** are available for **Windows**. The attached .exe files can be used to download and install the **MT4 Manager** and **MT5 Manager** platforms.

Installation Steps (Windows)

Please follow the steps below to install the platform:

1. Download the **MT4 Manager** or **MT5 Manager** .exe file.
2. Locate the downloaded file on your computer.
3. Double-click the file to open it.
4. Follow the on-screen instructions to complete the installation.
5. Once installed, launch the platform from your **desktop** or **Start menu**.

Other Platforms (macOS, Linux, Mobile, Web)

If you would like to download MetaTrader for **macOS, Linux, WebTerminal, App Store, Google Play, AppGallery**, or as an **APK file**, we recommend visiting the official MetaTrader download pages below.
